Getting Ready—

The baseball fans of Cathlamet are preparing to put a strong nine in the field for this season. They have good material and should have a winning team. A. J. Steblek, formerly of this city, has been secured to play with the nine at that city.

Cars Run Again—

The work of improving the alleyway from 38th to 42nd street has been completed and Sunday the cars commenced running over the new trestle work. The work has been going on for about two months and during that time the street car company gave transfers, running cars on each side of the improvement. The work was done by G. C. Palmberg.

Haven't Heard From Him—

No word has been heard from F. L. Evans recently, and it is presumed he is busy back East trying to arrange for the financing of the new electric line. Mr. Evans also went to Montreal, it is understood. Probably in the next week some definite word will be received in relation to the matter.

ASK FLOWERS FOR THE SEATTLE FAIR

MASS OF BLOOMS WANTED
FOR "ASTORIA DAY,"
JULY 17.

Every man, woman and child in Astoria who can raise flowers is requested to make a special effort to produce something extraordinarily exquisite for July 17th which is Astoria day at the Seattle Exposition. The Astoria Reading Club through Mrs. Celestia A. Gearhart and Mrs. Aubrey D. Garner will have charge of the day's entertainment, having been appointed to attend to these important duties by the Womens Federated Clubs of the State.

These ladies have asked the Chamber of Commerce to co-operate with them as extensively as possible and the flower idea is considered by the ladies to be exceptionally appropriate. Astoria is noted for the many fine flowers that can be raised here and the State Commission having the Exposition in charge will pay the transportation costs on the flowers from Astoria to Seattle using a refrigerated car for that purpose.

This is an opportunity afforded to show off the floral greatness of Oregon's most important port on the Columbia river.

It is not the intention to make a specialty of any one kind of flower more than another. It is desired that as great a variety of flowers be grown as possible. Roses mature to perfection here and an entire carload of roses and other flowers will be taken to Seattle if they can be grown.

Any one who will furnish flowers for that important day would be doing a favor to the ladies and to the Chamber of Commerce by communicating either to the ladies or to the commercial organization stating what flowers they will especially cultivate for Astoria day and such other details and suggestions as may be thought helpful.

Theatre Patrons Sneeze—

During the progress of the entertainment in one of the moving picture shows Sunday night some one blew the air full of some sort of snuff, and as a result most of the spectators soon began sneezing. The scenes on the screen and the songs were punctuated with innumerable kerchoos. Announcement was made that if the perpetrators could be found the punishment would be as heavy as possible, but this threat didn't seem to be doing the work. Several times before this winter the same trouble has occurred in the theatres. Up in Portland the trouble became so bad that strong efforts were made there to catch the perpetrators of the "joke," though without success. It seems there is a substance sold for the purpose of making people sneeze. It is called "Kerchoo," and is a fine, almost impalpable powder that is easily blown about in the air.

The "Lone Fisherman"—

In a complex rig, of dubious color, but essentially gotten up to signify that he was out for game, John Manciet was seen wending his way out of the city on Sunday morning last, headed for Olney, with a beautiful pole, a big basket, and a book of flies of endless variety, a pocketful of fine cigars and "other addenda" which may not be particularly defined. He was cheerful, almost eager, confident and strided along with a vim and purpose that could be read at a glance. When he returned in the evening, he had not a single fish to bless himself with; he had met the funny tribes themselves; and his with a "closed season" inaugurated by disgust was unaffected, immense and justifiable. He played a "lone" hand all day, and is now threatening to write to Warden McAllister about it.

A Welcome Visitor—

James T. Wallace, yclept, "Jim," who for years was a popular and useful citizen of Astoria, but who is now a traveling agent for the Chicago & Northwestern Railway, was in the city yesterday, presumably in the interest of his line, but he was kept so busy exchanging greetings with the host that was glad to see him, that it is doubtful if he had time to do anything bewilderingly successful for the line.

Edward Hosteller, the well known banker of The Dalles and Grand Master of the Oregon Lodge of the Independent Order of Odd Fellows, is due to arrive in this city on Thursday, the 8th inst., and it is expected he will be accompanied by Grand Secretary E. During the Passover season, which lasts eight days, matzos, or unleavened bread, will be eaten. The festival will be observed by Jews the world over. The feast was instituted in memory of the release of the Children of Israel from Egypt, the land of bondage.
